

This building is an Operation Field Center for a large refinery in British Columbia. In addition to the building's unique size, it was designed and engineered to be placed directly on top of an existing structure that was built by another manufacturer.

BUILDING SPECS AND FEATURES

Building Size:

24' X 60' X 12.6' / Double width unit

Protection Level:

5 PSI / 150 MS

Why RedGuard?

RedGuard builds modular solutions that protect lives and assets. It is the leading supplier of blast-resistant buildings and modular safe spaces. RedGuard's other innovative divisions and product lines specialize in modular safe structures, most with threat mitigation. The company is dedicated to five key disciplines: concept, design, build, installation and operation. Its success across these areas of expertise has led some of the world's largest organizations to trust their employees' lives to RedGuard products.
