

This building is part of a plant expansion project in the Houston area. The structure worked so well for the customer that after the initial order, an additional building was requested. It is being used as a combination of a lab for sample testing, and a permit/operators shelter. It is equipped with a Stainless Steel C1D2 Pressurized HVAC, Gas Detection, Fume Hood, Laboratory Grade Cabinets, Chemical Resistant Countertops, and built in work stations.

BUILDING SPECS AND FEATURES

Building Size:

24' X 40' X 12'

5 PSI / 200 MS

Why RedGuard?

RedGuard builds modular solutions that protect lives and assets. It is the leading supplier of blast-resistant buildings and modular safe spaces. RedGuard's other innovative divisions and product lines specialize in modular safe structures, most with threat mitigation. The company is dedicated to five key disciplines: concept, design, build, installation and operation. Its success across these areas of expertise has led some of the world's largest organizations to trust their employees' lives to RedGuard products.
